Take part in our screening
programmes to prevent:

- **BOWEL CANCER** for
men and women aged
50-69 years
- **BREAST CANCER**
for women
aged 45-74 years
- **CERVICAL CANCER**
for women
aged 25-64 years

PREVENTION CAN SAVE YOUR LIFE

Take part in our screening
bowel, breast

programmes to prevent
and cervical cancers

WHY TAKE PART?

- The earlier the diagnosis, **the more effective and less invasive** treatments will be
- Bowel and cervical lesions can be identified and treated when they are still precancerous, **preventing them from developing into tumours**
- Screening examinations are performed by **experienced, qualified staff** with equipment compliant with the relevant standards
- Procedures are **completely free of charge**, as are any further investigations required

WHO IS IT FOR?

Everyone with health service cover resident and domiciled in the Province of Modena.

The target groups are:

- **for BOWEL CANCER screening**
men and women aged from 50 to 69.
When? Every 2 years
- **for BREAST CANCER screening**
women aged from 45 to 74.
When? Every year for 45-49 and every two years for 50-74 age-ranges
- **for CERVICAL CANCER screening**
PAP TEST every 3 years for 25-29 and
HPV TEST every 5 years for 30-64 age-ranges

HOW DO YOU TAKE PART?

People in the relevant age-ranges will receive an individual letter with the date, time and place where they can attend for their screening examination.

For bowel cancer screening, the letter will contain a faeces sampling kit with test tube, complete with instructions for specimen preparation and delivery.

If you wish to take part but have not received or have lost your appointment letter, or require further information, please contact:

freephone number 800 300 315

or write to
