About Us

UNA SOCIETÀ DI INGEGNERIA
MULTIDISCIPLINARE ED INTERNAZIONALE
A SERVIZIO DELL'AMBIENTE COSTRUITO
A MULTIDISCIPLINARY AND
INTERNATIONAL ENGINEERING PRACTICE
SERVING THE BUILT ENVIRONMENT

Da oltre 45 anni, F&M Ingegneria è leader in soluzioni progettuali all'avanguardia nei campi dell'ingegneria civile, delle infrastrutture, del project management e della sostenibilità. L'azienda è operativa negli ambiti più ampi, dalla riqualificazione di grandi aree al restauro di importanti edifici storici; dalle opere infrastrutturali (centri logistici, terminal aeroportuali e ferroviari, porti, strade, ponti ed opere in sotterraneo) alla realizzazione di edifici prestigiosi (strutture sanitarie, sportive, luoghi di culto e per l'istruzione) e grandi poli commerciali.

For over 45 years, F&M Ingegneria has been a leading company in the provision of cutting-edge design solutions in the sector of civil engineering, infrastructures, project management and sustainability. F&M Ingegneria operates in several different fields, from the renewal of large areas, or the renovation of important historic buildings, as well as infrastructural works (logistic centres, airport and railway terminals, harbours, roads, bridges and underground works), to prestigious buildings (health and sport facilities, places of worship and educational centres) and large trade centres.

SERVING THE BUILT ENVIRONMENT

F&M Ingegneria è in continua espansione.

A Colonia nel 2002 è nata F&M Retail, specializzata nei servizi al mondo del retail. Nel 2010 F&M Ingegneria decide di ampliare gli orizzonti verso il Medio Oriente ed istituisce l'Oman Branch con sede a Muscat che nel 2015 diventa F&M Middle East Engineering Consultancy. Nel 2018 nasce F&M Divisione Impianti per approfondire la già consolidata esperienza nel settore impiantistico ed energetico.

Sempre nel 2018, F&M apre a Parigi F&M France, una filiale francese per seguire importanti commesse e consolidare la propria presenza in Francia.

Nel 2021 nasce F&M East Europe, con sede a Tirana, per sviluppare progetti ed iniziative nelle regioni orientali europee, gestendo in maniera efficace i diversi interventi sul territorio. Nello stesso anno nasce anche F&M Infrastrutture dedicata alla progettazione di opere stradali ed infrastrutturali.

Nel 2024 viene istituita la F&M International LTD, con sede a Londra. Specializzata nella progettazione, F&M International mette a disposizione competenze internazionali a livello locale. Sempre nel 2024 F&M Divisione Impianti viene incorporata mediante fusione in F&M Ingegneria.

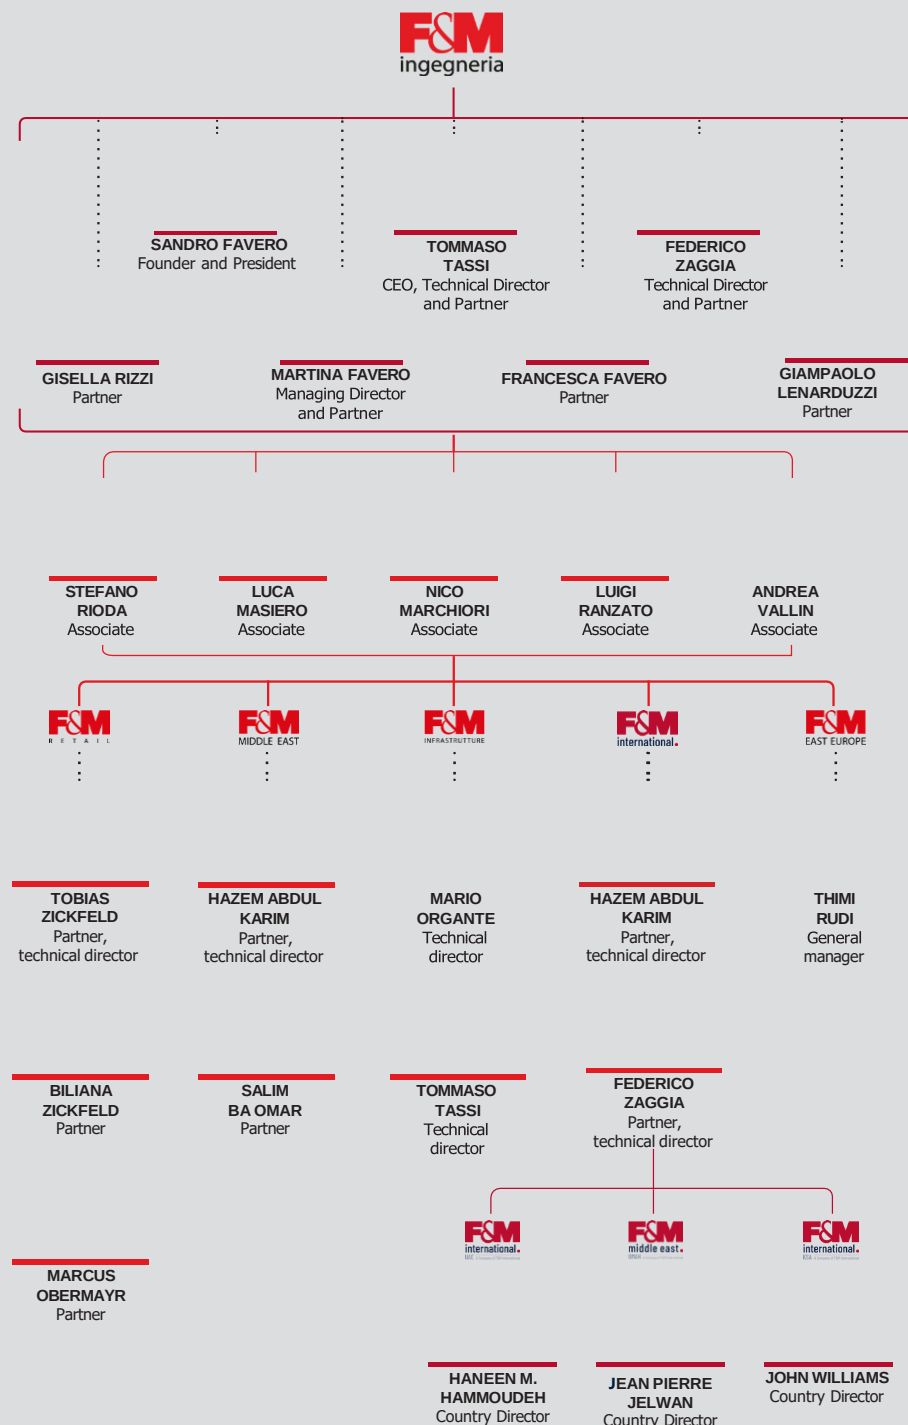

F&M Ingegneria is continuously growing.

In 2002 F&M Retail, which is specialised in the provision of services to the retail world, was founded in Germany. In 2010 F&M Ingegneria extends the activities in the Middle East region establishing an Omani Branch in Muscat that became F&M Middle East Engineering Consultancy in 2015.

In 2018 the expansion continues with the establishment of F&M Divisione Impianti to develop the experience in MEP sector. A F&M France branch was opened in Paris to follow some major projects and strengthen its presence in France.

In 2021 F&M East Europe has been launched based in Tirana to promote projects and activities in the eastern Europe, effectively managing the various interventions in the area. In the same year, F&M Infrastrutture was also founded, dedicated to the design of road and infrastructure works.

In 2024 F&M International LTD has been launched based in London. A specialised, lead design consultancy: F&M International delivering international expertise locally. In the same year F&M Divisione Impianti is incorporated into F&M Ingegneria.

Quality Certification

F&M Ingegneria è certificata secondo la norma UNI EN ISO 9001 da ICMQ, ente accreditato da ACCREDIA, per la Progettazione, il Project Management, la Direzione Lavori e il Coordinamento Sicurezza in fase di progettazione ed esecuzione da 18 anni.

Dal 2016, F&M Ingegneria, pur non avendo alcun obbligo giuridico, ha deciso di adottare il Codice Etico e il Modello di Organizzazione Gestione e Controllo ai sensi del D.Lgs. 8 giugno 2001, n.231, volendo perseguire una gestione completamente trasparente e corretta di tutte le proprie attività e relazioni principalmente pubbliche ed istituzionali.

Dal 2018, F&M Ingegneria è certificata 18007BIM da ICMQ, per le attività di progettazione in ambiente BIM di opere civili, strutturali, infrastrutturali e produzione di materiale multimediale, posizionandosi tra le prime 10 società italiane a ricevere la certificazione BIM. Dal 2019, F&M Ingegneria è certificata UNI ISO 14001:2015 e UNI ISO 45001:2018 da ICMQ, per i servizi di progettazione, project management, direzione lavori e coordinamento della sicurezza in fase di progettazione ed esecuzione di opere di: ingegneria civile, strutturale, geotecnica, dei trasporti e infrastrutturale, idraulica e marittima, ambientale e impiantistica. Dal 2024, F&M Ingegneria è certificata SA8000:2014 da GCERTI ITALY e UNI/PdR 125:2022 da SGS Italia S.p.A., per i servizi di progettazione, project management, direzione lavori e coordinamento della sicurezza in fase di progettazione ed esecuzione di opere di: ingegneria civile, strutturale, geotecnica, dei trasporti e infrastrutturale, idraulica e marittima, ambientale e impiantistica.

F&M Ingegneria has been certified UNI EN ISO 9001 by ICMQ, a certification body recognised by ACCREDIA; the activities are: design, project management, site supervision, H&S for 18 years.

VARIOUS OPERATIONAL OFFICES ALLOW
TO FULLY RESPOND TO CLIENT'S NEEDS

F&M Ingegneria è una società interdisciplinare costituita da uno staff multietnico che mantiene una prospettiva "global" con la quale affronta ogni progetto: ciò la rende altamente competitiva; tra le poche aziende del settore in grado di vantare una metodologia progettuale di matrice internazionale, nel corso degli anni si sta consolidando come interlocutore privilegiato per il pubblico degli investitori e developers stranieri. La sede principale di F&M Ingegneria si trova a Mirano-Venezia, in un Mulino del '600 magnificamente ristrutturato; altre sedi si trovano a Milano, Roma e Parigi. F&M Retail ha sede a Colonia e uffici a Dubai. F&M Middle East ha sede a Muscat ed uffici a Salalah e Beirut. F&M Infrastrutture ha sede nell'headquarter di F&M Ingegneria a Mirano (VE). F&M East Europe ha sede a Tirana e F&M International ha sede a Londra e uffici Dubai, Beirut e Muscat.

F&M Ingegneria is an inter-disciplinary company that includes a multi-ethnic staff with a "global" perspective that is applied to every project: this is what makes it so competitive. It is one of the few companies of this sector that can boast an international project management process, and it is gaining strength over the years as the preferred counterpart of foreign investors and developers.

F&M Ingegneria HQ is placed in Mirano-Venice and offices in Milan, Rome and Paris. F&M Retail HQ is placed in Cologne and offices in Dubai. F&M Middle East HQ is placed in Muscat and offices in Salalah and Beirut. F&M Infrastrutture is based in Venice in the F&M Ingegneria HQ. F&M East Europe is placed in Tirana. F&M International is based in London and has Dubai, Beirut and Muscat offices.

Team

UNO STAFF INTERNAZIONALE CHE
AFFRONTA OGNI PROGETTO CON UNA
PROSPETTIVA GLOBALE

A INTERNATIONAL TEAM
TO FACE ALL THE PROJECTS WITH A
GLOBAL PERSPECTIVE

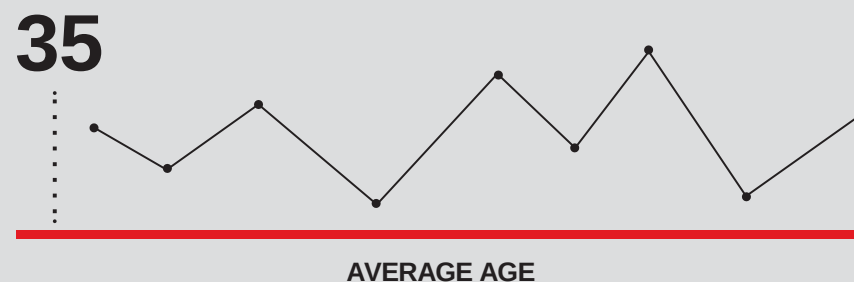

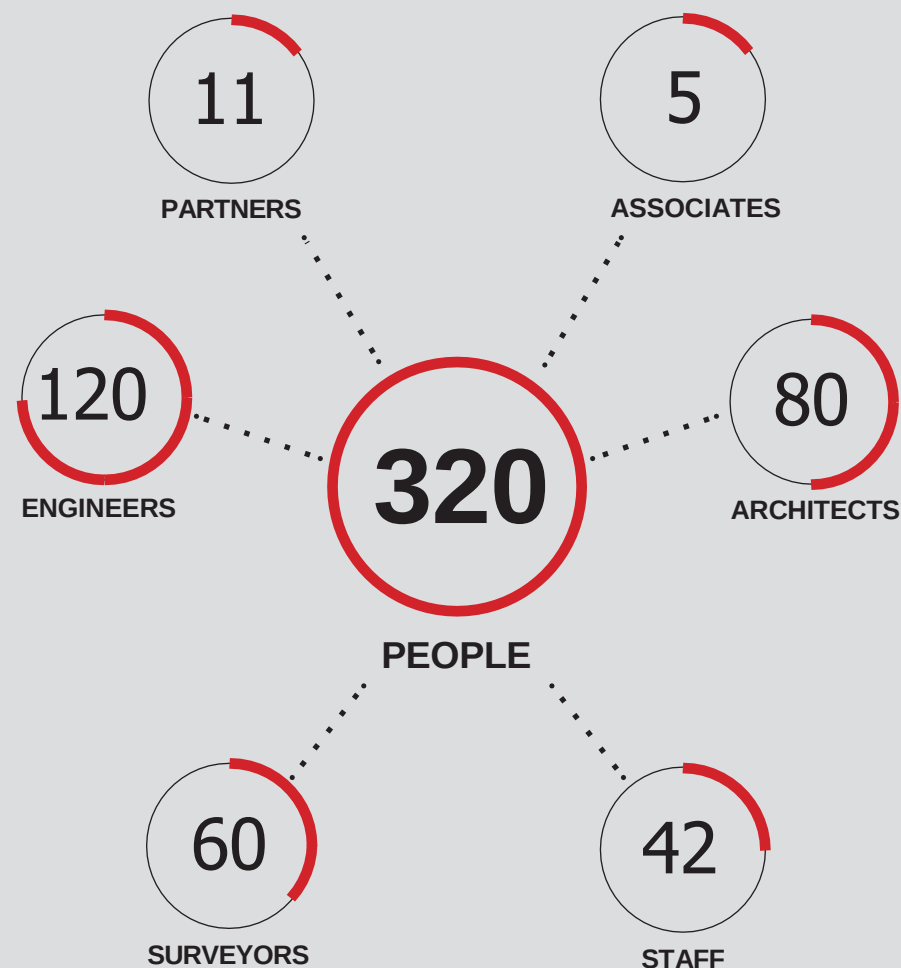

La prima risorsa di F&M Ingegneria è la sua squadra. Il nostro team di progettisti, altamente qualificati, opera in un ambiente multiculturale e multidisciplinare, fonte continua di stimoli, dibattito e collaborazione tra le diverse competenze.

La nostra sede "open space" è riflesso del nostro approccio olistico al lavoro con il coinvolgimento dei partners in tutti i progetti.

I sei partners hanno maturato esperienze in diversi settori e gestiscono aspetti differenti del business di F&M. La diversità delle loro competenze e la multidisciplinarietà dei progettisti e dei tecnici specializzati rendono F&M Ingegneria unica nel suo settore e sempre innovativa.

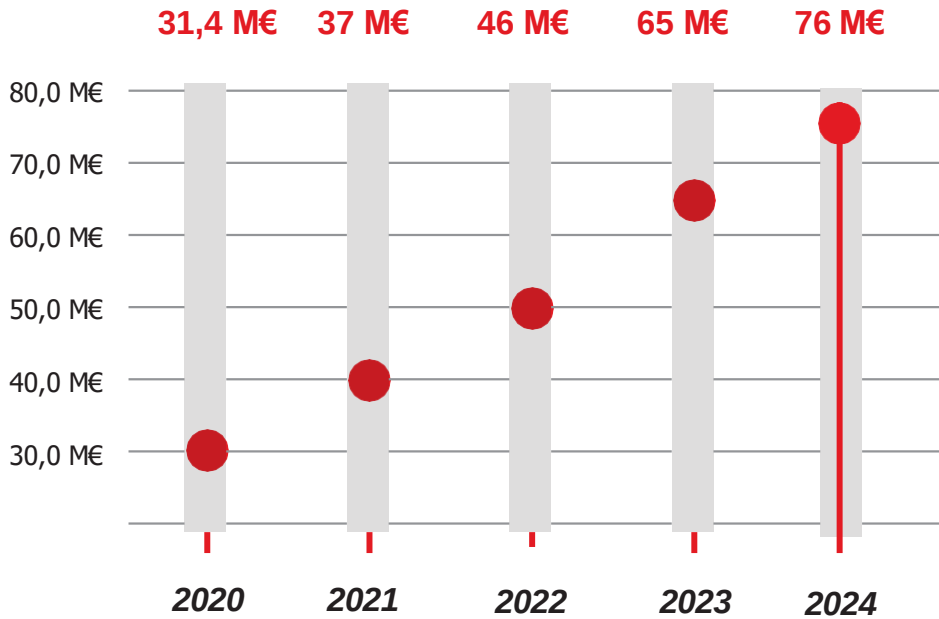

F&M Ingegneria's first asset is its team. Our highly qualified design team operates in a multicultural and multidisciplinary environment, a continuous source of stimulation, debate and collaboration between different skills. Our "open space" office is reflective of our holistic approach to work with the involvement of our partners in all projects.

The six partners have gained experience in different sectors and manage different aspects of F&M's business. The diversity of their skills and the multidisciplinary nature of the designers and technical specialists make F&M Engineering unique in its field and always innovative.
